

# AESTHETICS BREAKTHROUGH DAY COURSE

This comprehensive course focuses on injectables and offers a progressive learning experience, providing essential knowledge and skills for facial aesthetics treatments. It equips you with a well-rounded education, covering both theoretical and practical aspects necessary to kickstart your injecting career. The in-clinic demonstrations further enhance your aesthetics learning, providing invaluable hands-on experience. By the end of the course, you will have gained the necessary skills, confidence, and expertise to become a proficient and safe injector in the field of facial aesthetics.

## COURSE TOPICS

- The science, theory and practice of injectable treatments for both botulinum toxin and dermal fillers.
- In-depth study of facial anatomy theory and understanding.
- Focus on complications management for safe practice.
- The art of patient-led, in-depth consultations.
- Demonstration for treating forehead, frown lines, and crow's feet with botulinum toxin.
- Demonstration for injecting lips, cheeks, and folds with dermal fillers.
- Hands-on experience with a mannequin and real-life models.
- Business building support and insights for establishing a new clinic and brand.

## KEY INFORMATION

- You will be provided with eight hours of e-learning material prior to the training day.
- You will receive a foundation certificate upon successful completion.
- You will join and have access to our private online community for support and guidance.
