

LEVEL 7

IN PARTNERSHIP WITH HARLEY ACADEMY

The Level 7 diploma is the most prestigious and advanced qualification in the field of UK aesthetic medicine. This postgraduate-level program, regulated by VTCT, provides comprehensive training in the science, theory, and practical aspects of injectable treatments. It is widely acknowledged and respected within the industry.

Earning this esteemed qualification will set you apart as a top-tier practitioner, enhancing your professional status. Through extensive hands-on experience, your skills will be refined, enabling you to deliver safe and effective treatments under supervision in a clinical setting, staying ahead of regulatory requirements.

With this flexible qualification that accommodates your schedule, you can propel your business forward. Moreover, you will have access to a supportive online community of peers, offering valuable networking and educational opportunities.

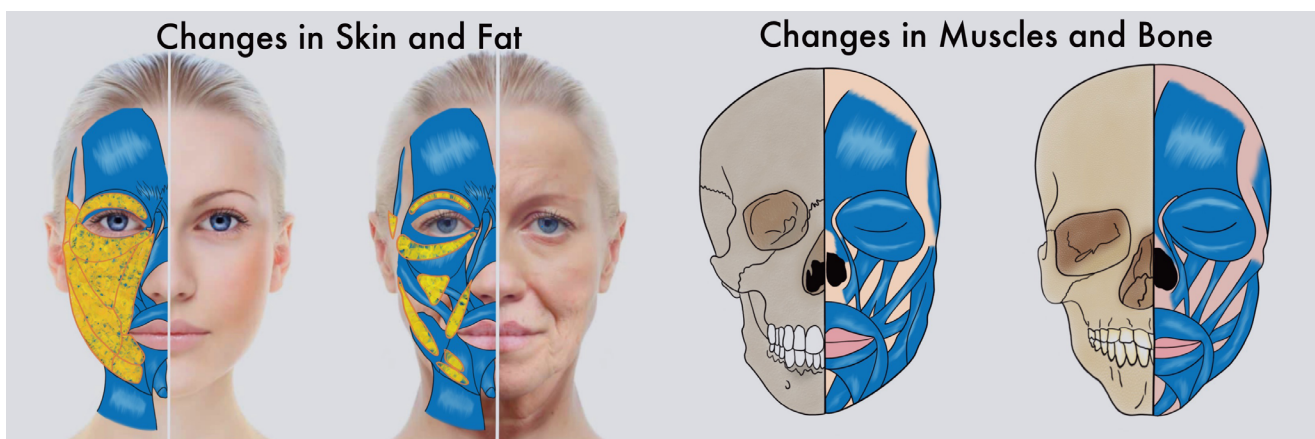

COURSE TOPICS

- How to consult patients for cosmetic treatments safely and ethically.
- Psychological drivers for patients considering treatment.
- In-depth facial anatomy, ageing, science and theory.
- How to inject patients with botulinum toxin and soft tissue fillers.
- Ethics and law in aesthetic medicine.
- How to build a thriving business and career in aesthetic medicine.
- E-learning: the science of soft tissue fillers and botulinum toxin.
- E-learning: professionalism, law and ethics.
- E-learning: dermatology and skin ageing.
- E-learning: principles of psychology.

KEY INFORMATION

- You will receive 1:1 training during your supervision days.
- You will be awarded a Level 7 diploma and certificate (equivalent to a Master's degree).
- You will receive training, academies and assessment support.
- You will join and have access to a private online community for support and guidance.

You will complete this self-paced e-learning throughout your Level 7 course, testing your knowledge with module-based quizzes. You can use this e-learning to complete your Short Answer Questions (SAQs) and to study for your written exam.

Step 1

Foundation & Induction – All our Level 7 students begin their course with our Foundation Training in Botox & Dermal Fillers to ensure you have a sound base for beginning your aesthetics career. This course will introduce you to aesthetic medicine with basic anatomy and theory; you will also learn essential practical skills using mannequins and injecting live models on the day.

Observation Days - The Level 7 diploma requires you to complete 20 observed cases, ten each in botulinum toxin and dermal fillers. You will observe a trainer administering these treatments on a live patient and will have the opportunity to ask your trainer questions about the treatments and techniques used.

Step 2

Step 3

Mentoring Sessions - The Level 7 diploma requires you to complete a minimum of 10 observed and supervised treatments, ten each in botulinum toxin and dermal fillers. You will have one-to-one mentoring with a trainer supervising as you watch and administer these treatments on a live patient. In these sessions, your trainer will guide you from consultations through to treatment planning and injecting while ensuring you hone the necessary skills you will use throughout your career

Assessment - To gain your Level 7 diploma, you must successfully complete the assessments as set by our awarding body, VTCT:

- Completion of your case logbook
- Direct observation of practical skills (DOPS)
- Written short answer questions (SAQs)
- Written literature review
- Timed academic examination

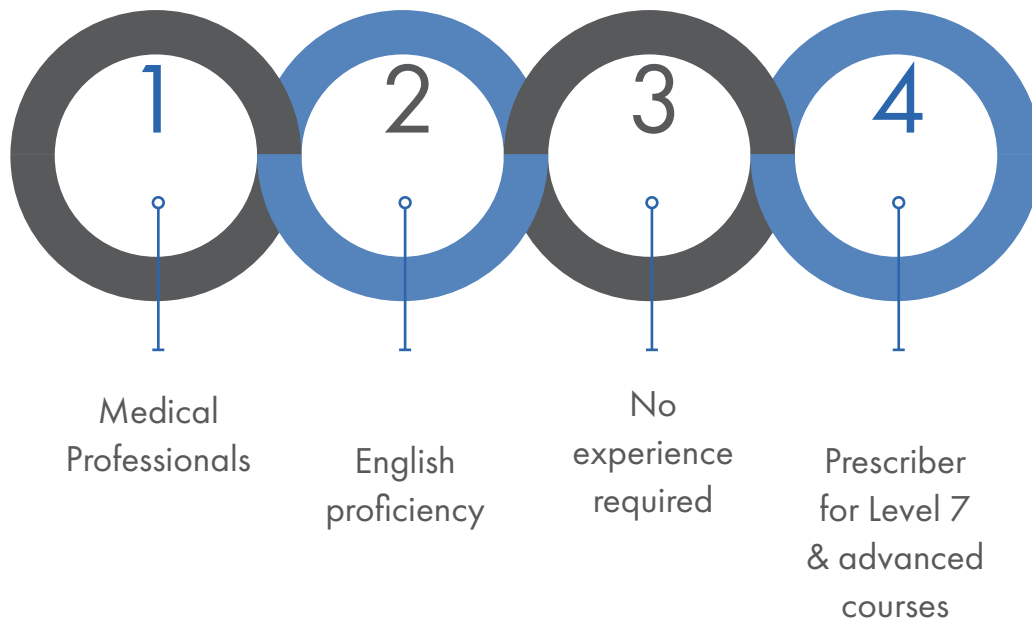

Step 4

ENTRY REQUIREMENTS

Our courses cater to a wide range of medical professionals, spanning from those at the beginner level to intermediate and advanced practitioners. To enrol on our courses, students are required to meet the following criteria:

- Qualification in clinical pharmacy, medical, dental, nursing and registered with the UK governing body (GPhC, GMC, GDC, NMC).
- Prescriber for Level 7 and advanced courses.
- No previous aesthetic experience required for Level 7 and foundation courses.
- English proficiency.
